"I don't know what I would do without it"

"A smart addition to my toolkit"

FERRET WiFi KIT

INVESTIGATE WITH A FERRET

THE KIT ALSO COMES WITH A RANGE OF ACCESSORIES FOR ULTIMATE FUNCTIONALITY

- Padded EVA case
A compact padded EVA case keeps your Ferret WiFi camera and accessories secure and accessible.

- Ferret WiFi Camera CFWF50A
720p WiFi rechargeable inspection camera which provides a high resolution video live stream with a wireless range up to 40' (12m).

- Camera Gooseneck
Point the Ferret camera in any direction with the addition of the flexible gooseneck. It's approximately 6" (150mm) long and can attach to push pull rods.

- Rod/ Hook/ Magnet
Connect the 6" (150mm) rod to the front of the camera and use the hook or magnet to pull back a cable or retrieve a metallic object.

- Thread Adaptors
The Ferret camera thread is 1/4" - 20UNC. For compatibility with the majority of fish sticks (push pull rods), thread adaptors are included to suit 8-32 threaded fish sticks (most common thread type in USA) as well as 5mm and 6mm metric threaded fish sticks.

INTRODUCING THE FERRET WiFi

Frustrated with a lack of visibility and accessibility when working in dark, confined or hard to reach places?
 Needing to diagnose problems or carrying out inspections or installations?
 Conducting risk assessments?
 Require data capture for a quote, proof of job done or problem found?
 Or just needing help with those tricky home DIY jobs?

The world's first wireless rechargeable inspection and cable pulling solution is now available in a WiFi version with a free app to suit both Android and iOS. The 720p WiFi rechargeable inspection camera provides a high resolution live stream with a wireless range of up to 40' (12m).

Investigate with a Ferret - Carry out these jobs quickly, safely and with ease with a Ferret WiFi. The small lightweight Ferret WiFi camera is wireless, rechargeable and IP67 rated.

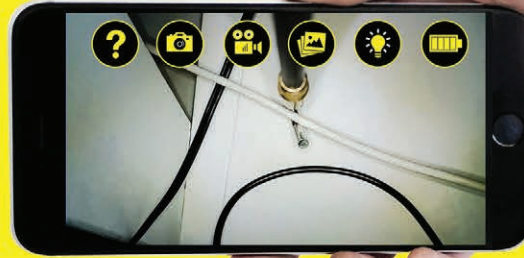

It easily glides into those confined dark places and with its 6 bright white LEDs provides better visibility and quality illumination to help you investigate, locate, or diagnose and fix those tricky problems. You get a crisp clear image with 720p high resolution providing real time video directly to your smart device. Photo capture and video functions allow you to identify and have proof of a problem which can support quoting and invoicing work.

Easy to use, intuitive Free App allows you to have control over the camera, with adjustable LED brightness. Comes with a range of accessories - gooseneck, rod/hook/magnet and thread adaptors to enhance functionality.

Used For - fast safe close up visual inspections, fault finding, locating and pulling in cables, lighting installations, HVAC installations, finding a leak, object retrieval, looking behind walls, under flooring and building risers, checking guttering, as well as helping with those tricky DIY jobs. Suitable for a wide range of uses and environments.
